Most merchandise you'll find at the merch booth in the village is either organic cotton or recycled cotton.

All Evolve posters and marketing materials are printed on select recycled stock using environmentally-friendly waterless printing presses that eliminate vast amounts of water waste. Additionally, our print shop uses sustainable, renewable Bullfrog Power to run their printers.

## RECYCLING STATIONS

Most people live with a domestic recycling program in their home. The same ideas and principles apply at Evolve. A clean and safe festival is a fun festival. Be Green. Be The Change.

At the festival, keep your eyes peeled for 50 colour-coded recycling stations conveniently located throughout the Evolve grounds. Our recycling stations make it really easy to properly dispose of paper, plastic, garbage, compost and recyclable cans and bottles.

We all know that a three-day festival generates a lot of garbage. Evolve is undertaking a most ambitious effort to produce a festival that generates zero waste. That's right - we said ZERO WASTE. And we need your help. Evolve is asking you to use the recycling facilities with consciousness. Together we can decrease the volume of waste that ends up in the landfill and divert it to be recycled.

## GREEN INITIATIVES AT EVOLVE

## WOMSHOPS

Evolve workshops will take place in and around the Champagne Yurt. Get ready to have fun, meet new people, and learn something new!

## WEE WILD ONES-HIDS ZONE

Hey kids, bring your parents down to the real party! This year the "Wee Wild Ones" will be next to the Awareness Village in a beautiful yurt. We've crafted yurt. Please drop in between 1:00-4:00pm for lots of fun, face painting, performances, story-telling, and new friends!

As always the Awareness Village at Evolve welcomes some of Canada's best organizations to educate and share their knowledge and experience.
